

URGES QUICK ACTION ON PARKWAY PLANS

Conservation Worker Indorses
Baltimore to Washington
Park Proposal.

"Arouse outside interest in the proposition to convert the area connecting Washington and Baltimore into a national park. It can be done easily. Do it now."

This is the practical advice given those Washingtonians interested in the scheme by Mrs. John Dickinson Sherman, of Chicago, chairman of the conservation committee of the General Woman's Federation, who has been here this week attending the National Park Conference. Mrs. Sherman will leave for her home in Chicago tonight to continue work of converting the sand dunes of Lake Michigan into a national recreation place and to interest the General Federation of Women in the plan to create a Washington-Baltimore Park.

Mrs. Sherman already has taken the proposition up with Washington women, having appeared before the Twentieth Century Club last week, and pointed out to them the necessity of prompt action.

"Some day the residents of Baltimore and Washington will be unanimous in the belief that such a park is necessary," Mrs. Sherman said today.

"My idea is to purchase this land now. It can be obtained at a reasonable figure today. Next year the value will increase."

Mrs. Sherman suggested to the members of the Twentieth Century Club that they immediately ascertain how much land lies between Washington and Baltimore, by whom it is owned, and the chances of purchasing it.

CAN'T LIVE ON SALARIES

Kindergarten Teachers Complain of
Present Starvation Wage.

The present salaries of kindergarten teachers are so small that it is impossible to live without going into debt, a number of the teachers declare in a brief to be presented to Congress in connection with the present salary.

The brief points out that since a kindergarten teacher must be a graduate of a normal school and so prepare for her work for several years, the compensation should be more than the \$900 a year she receives as a maximum after teaching ten years.

ASKS FOR STANDARD LOAF OF U. S. BREAD

Congressman H. T. Helgesen
Says Lack Is Responsible
for High Prices.

Congressman H. T. Helgesen of North Dakota, whose speech on prices of bread in this country and abroad before the Cathedral Heights Citizens' Association Thursday night raised some comment in the Capital, today issued a statement, explaining in detail the conditions here and abroad, as he sees them.

Basing his statements on those of J. R. Cahill, official investigator of the board of trade in England, who stated he did not understand how the English people could buy bread in London for one-third the price Chicago consumers paid, Congressman Helgesen said:

Difference in Price.
"Mr. Cahill has informed me that while Americans have paid 5 cents for fourteen ounces of bread, English consumers paid 10 cents for a loaf weighing sixty-four ounces made out of American wheat; and also that the English four-pound loaf never cost

more than 12 cents, and usually only 10 cents.

"According to this official English investigator, we have paid twice as much for our bread in times of peace as the English paid for theirs in times of peace, although both were made from American wheat, and even now, when so-called 'war prices' prevail in England, the same proportion holds good. For while England recently advanced the price of bread to 17 cents for four pounds, or 4 1/4 cents per pound, thereby nearly causing a bread riot, we in this country are paying 9 1/2 cents per pound, or almost twice what the English pay for the same quantity.

No Standardized Loaf.

"One reason why we Americans submit tamely to this particular form of extortion is because we have no standardized loaf, and therefore do not realize the exorbitant price which we pay for bread."

FUNERAL OF DR. TUDOR

First Pastor of Mt. Vernon to Be
Buried Tomorrow.

Funeral services for the Rev. Dr. William V. Tudor, long one of Washington's best known pastors, will be held tomorrow afternoon at the Mt. Vernon Place M. E. Church at 2 o'clock.

Dr. Tudor died at his residence, 921 M street, Friday, aged eighty-four years. For the past eight years he has not been assigned to a church. He was the first pastor of the Mt. Vernon Church, established shortly after the civil war.

Doctor Says Crying Need of The Woman Of Today Is More Iron In Her Blood TO PUT STRENGTH IN HER NERVES AND COLOR IN HER CHEEKS.

Any Woman Who Tires Easily, is Nervous or Irritable, or Looks Pale, Haggard
And Worn Should Have Her Blood Examined for Iron Deficiency.

Administration of Nuxated Iron in Clinical Tests Gives Most Astonishing Youthful Strength and Makes Women Look Years Younger.

"There can be no healthy, beautiful rosy-cheeked women without iron," says Dr. Ferdinand King, a New York physician and author.

"In my recent talks to physicians on the grave and serious consequences of iron deficiency in the blood of American women, I have strongly emphasized the fact that doctors should prescribe more organic iron—nuxated iron—for their nervous, run-down, weak, haggard-looking women patients. Pallor means anemia. The skin of the anemic woman is pale, the flesh flabby. The muscles lack tone, the brain fags and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

"In the most common foods of America, the starches such as, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, dehydrated cornmeal no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cookery, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss."

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

"As I have said a hundred times over organic iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause which causes disease was nothing more or less than a weakened condition brought on by lack of iron in the blood."

"On account of the peculiar nature of woman, and the great drain placed upon her system at certain periods, she requires iron much more than man to help make up for the loss."

"Iron is also absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals

Dr. Ferdinand King, New York physician and author, tells physicians that they should prescribe more organic iron—Nuxated Iron—for their patients—Says anemia—iron deficiency—is the greatest curse to the health, strength, vitality and beauty of the modern American Woman—Sounds warning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises use of only nuxated iron.

for two weeks, then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper

form. And this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old form of reduced iron acetate, and tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children is, alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than any other iron.

"I have used Nuxated Iron widely in my own practice in most severe aggravated conditions with unfailing results. I have induced many other physicians to give it a trial, all of whom have given me most surprising reports in regard to its great power as a health and strength builder."

"Many an athlete and prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena; while many another has gone down in inglorious defeat simply for the lack of iron."

Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice for publication, as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ills—nervousness, irritability, flabby, sagging muscles, etc.—and in consequence of their weakened, run-down condition they are so liable to contract serious and even fatal diseases, that I deem it my duty to advise all such to take Nuxated Iron. I have taken it myself and given it to my patients with most surprising and satisfactory results. I wish quickly to increase their strength, power and endurance. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. Send in this city to Jax O'Donnell Drug Store, People's Drug Store, and all good druggists.

THE DAILY STORE NEWS OF LANSBURGH & BRO.

Another Extraordinary Sale of Winter Coats

Telephone Main 6853
Mail Orders Promptly and Efficiently Filled.

Editorial

We were watching a little two-year-old boy climb up a chair—as children are wont to do. The first two times he tried it he fell back kerbang, and hit his head a resounding whack on the floor. But he never uttered a cry—just got up and went at it again. That boy is made of success stuff.

Success in life doesn't consist in never falling, but in rising every time we fall. We all sometimes stumble on the way. If we never make a mistake we shall never share in a real success. If you are on the wrong track, turn back—retrace the steps and refuse the day's problem resolutely.

Whatever success this store may have achieved in the past has been earned by profiting today through the mistakes of yesterday. That is why we want to see ourselves as others see us and not as our own reflection. If to your way of thinking we sometimes take a wrong step here, tell us, please, and let us profit by your criticism, thus building
A Store of Greater Service.
